**Ideal For:**  
Pool Surrounds  
Driveways  
Steps  
Patios  
Pathways  
*Also Internal use*

\*Pre Sealed \*Salt Resistant

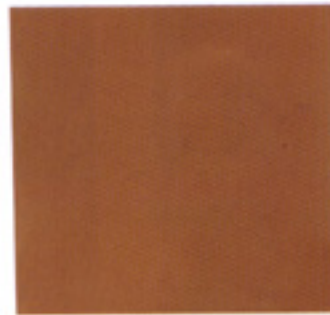

# New Age Colours

Terracotta tiles are ideal for indoors and outdoors, domestic or commercial use. The rigorous quality processes are vast and include out total immersion controlled sealing system that penetrates every tile before they leave the factory.

This reduces water absorption, making installation easier and more convenient, resisting efflorescence (white powder) and mould formation, and achieving salt and slip resistance.

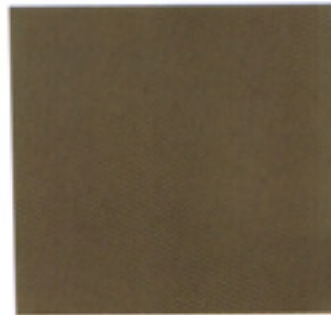

Sattilo

Burgundy

Evening Shade

Umber

Cotto

Sahara

\*Standard tile available is 300 X 300 X 14.

\*Standard stepread available is 300 X 360 X 14/60
